

"J-M" Asbestos Roofing

Is Different From Every Other Kind of Prepared Roofing

It is an ALL-MINERAL product, composed of pure asbestos and asphalt—both minerals. That is why it is IN A CLASS BY ITSELF, as all other Roofings are made of wool felt, paper pulp, rag stock and similar perishable materials.

IT IS THE BEST

and cheapest per year, requires no painting and is the only permanently durable prepared Roofing on the market. It is the best fire protection, is cheaper than shingles, tin or sheet iron roofings, prevents the heat from penetrating, it cannot rust, will not melt or crack like tar roofings, no gravel to wash off and a hundred other reasons why it is the best.

We simply refer you to any of the many users of J. M. Roofing.

LEGAL NOTICE.

Mineral Application No. 011633, United States Land Office, Phoenix, Arizona, June 28, 1910. Notice is hereby given that the Phoenix Gold Mining Company, by its Attorney in Fact, Fen S. Hiffreth, whose postoffice address is Phoenix, Arizona, has made application for patent to the Phoenix and West Side Mill Sites, Mineral Survey No. 2727 A & B, in Cave Creek Mining District, Maricopa County, Arizona, described as follows: Phoenix lode: Beginning at Cor. No. 1, whence U. S. L. M. No. 1, Cave Creek District, bears S. 54 degrees 46 minutes E. 362.29 feet; thence S. 53 degrees 47 minutes W. 1490.77 feet to Cor. No. 2; thence N. 39 degrees 22 minutes W. 600 feet to Cor. No. 3; thence N. 54 degrees 10 minutes E. 1401.25 feet to Cor. No. 4; thence S. 39 degrees 22 minutes E. 590.48 feet to Cor. No. 1, the place of beginning, containing 13.112 acres. West Side lode: Beginning at Cor. No. 1, whence U. S. L. M. No. 1, Cave Creek District, bears S. 54 degrees 46 minutes E. 362.29 feet; thence S. 53 degrees 47 minutes W. 1490.77 feet to Cor. No. 2; thence N. 39 degrees 22 minutes W. 600 feet to Cor. No. 3; thence N. 54 degrees 10 minutes E. 1401.25 feet to Cor. No. 4; thence S. 39 degrees 22 minutes E. 590.48 feet to Cor. No. 1, the place of beginning, containing 13.112 acres. Phoenix Mill Site: Beginning at Cor. No. 1, whence U. S. L. M. No. 1, Cave Creek District, bears S. 45 degrees 23 minutes E. 1635.93 feet; thence S. 48 degrees 20 minutes W. 346.76 feet to Cor. No. 2; thence N. 55 degrees 35 minutes

W. 490.34 feet to Cor. No. 3; thence N. 39 degrees 59 minutes E. 329.78 feet to Cor. No. 4; thence S. 57 degrees 25 minutes E. 543.30 feet to Cor. No. 1, the place of beginning, containing 3.878 acres. West Side Mill Site: Beginning at Cor. No. 1, whence U. S. L. M. No. 1, Cave Creek District, bears S. 57 degrees 10 minutes E. 1694.10 feet thence S. 48 degrees 20 minutes W. 418.94 feet to Cor. No. 2; thence N. 57 degrees 25 minutes W. 373.97 feet to Cor. No. 3; thence N. 32 degrees 56 minutes E. 418.87 feet to Cor. No. 4; thence S. 55 degrees 35 minutes E. 490.34 feet to Cor. No. 1, the place of beginning, containing 4.110 acres. All said lode claims and mill sites being situated in the Cave Creek Mining District, Maricopa County, Arizona, in approximately T. 7 N., R. 4 E., unsurveyed, Gila and Salt River Base and Meridian. The adjoining claims are, Northeast: By the Mashackety and Columbia lodes, Survey No. 2885, and the Phoenix Mill Site, Survey No. 753, and surrounded on other sides by the Public Domain. The areas in conflict are: Phoenix lode conflicts with Maricopa lode, Survey No. 752, 17.447 acres, and Phoenix Mill Site conflicts with Phoenix Mill Site, Survey No. 753, 1.131 acres. The locations of these claims are recorded in the Mining Records of Maricopa County, as follows: Phoenix lode, in Book 1 of Records of Mines, Pages 245 and 246. West Side lode, in Book 5 of Records of Mines, Pages 56 and 57. Phoenix Mill Site, in Book 20 of Mines, Pages 212 and 213. West Side Mill Site, in Book 20 of Mines, Page 213. FRANK H. PARKER, Register.

FOR SAKE OF HEALTH OF ITS EMPLOYEES

Republican Has Installed a Purifying Exhaust System.

Though it is not the most expensive, The Republican yesterday installed the most important improvement it has ever made—an exhaust system for the press and machine room. The great room, containing not less than 60,000 cubic feet of air, is purified every twelve minutes by means of the system. There are few more unhealthy places than the machine room of a newspaper, where the air is poisoned by the fumes from molten metal, by gas used in the melting of the metal and by the dust which is laden with poisonous particles of lead from the types.

There are few trades which contribute a larger quota to the number of victims of the white plague than the printer's trade, the cause of the contribution being the poisonous air which printers are generally compelled to breathe.

It was with the idea of giving the men down stairs the best possible air that the management of The Republican, without suggestion from the employees, has had this exhaust system installed.

IF THERE IS FRAUD IN THE REGISTRATION

It is Mathematically Clear Who Committed It.

Without due consideration for the reputation of its party for honesty, the Arizona Democrat makes the statement that it has been disclosed that in the supplemental registration just closed there have been not less than 1,000 illegal registrations.

This may or may not be a fact, but there is one plain, undisputed fact, and that is that the republican registration officers could not have contributed very much to such an extensive fraud.

There are only three republican justices of the peace in this county who did any registering and there were no republican registration officers appointed. Justice Johnstone of this precinct used only 206 blanks, and Justices Irwin of Mesa and Carr of Tempe used less than 100 between them. Therefore only about 300 persons were registered by these three officers, so that at least 700 of the alleged fraudulent registrations must have been made by the democratic registration officers.

THE DAILY PARADE.

As a ruin the cloudy heaven
Shakes to the wind's wild shocks;
To the echoing bolts of the levin,
As a wreck the ocean rocks.

And the storm on earth careering
Seems, with its thunderous roll,
The laugh of a monster jeering
At the dreams of the human soul.

But behind the ephemeral thunder
Smiles the eternal sun,
Whose glory provokes no wonder,
Since only a common one.

O truth, so close at our portals,
With silent, but constant sign,
When shall we learn, dull mortals,
The common is divine?
—Henry Austin, in July Century.

MANY SUMMER TOURISTS PAY VISITS TO PHOENIX

UNUSUALLY HEAVY INCOMING TRAVEL TO THIS CITY.

Question Raised As to What Will Be Done With Winter Visitors.

One of the surest indications of the importance of Phoenix and the Salt River valley in the eyes of the eastern people is found in the unusually heavy incoming traffic of people holding round-trip tickets from distant points. There are a thousand and one reasons calling for this class of travel, but the majority of them are no doubt of the class seeking new homes or places for investment. Or if not either of these, they have heard of the wonders of this section and in mapping out a summer trip have fixed upon Phoenix as their objective point.

That this is true is indicated daily at the uptown ticket offices of both the Southern Pacific and the Santa Fe. At each of these offices each day appear numbers of persons wishing to validate their tickets sold from the east to Phoenix and upon which return is about to be made. Casual inquiry often reveals the real object of the visit.

For many years it was supposed that the incoming traffic to Phoenix did not amount to anything and that only those whose business positively required that they come here would do so in the summer months. But all this seems now to be changed, and while there is not nearly as large a number of people visiting the valley just now as there is during the cooler months, the number who present tickets reading to Phoenix and return east is unusually heavy.

The heaviness of this class of travel at this time is taken as an omen of an approaching influx greater than has ever before been experienced in the history of Phoenix. And despite the fact that many of the hotels and rooming houses in Phoenix are today engaged in providing additional

?

The House That Jack Built

rooms, preparing for the approaching fall and winter, the question is frequently heard, What will be done with them when they come?

Even today the Ford hotel, the Commercial hotel, the Adams Annex, the Stag and dozens of other smaller places are running at pretty nearly

their capacity, and at a time of the year when heretofore these very same places were offering summer rates in order to keep their rooms filled.

The Adams Annex has under course of construction a large addition, which will practically double the present capacity of the house, while the Com-

mmercial is adding a large number of rooms. The Ford has every available rooming place within reasonable distance of the Washington street establishment leased and conducted as annexes.

The erection of the new Hotel Adams will of course serve to help

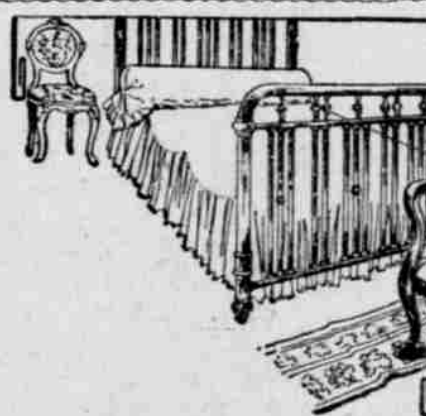

out when the greatest rush is experienced, but it is not likely that even if work were to be commenced at once that the house would be ready when it would be most needed. So the problem has again arisen as to what shall be done with the winter tourists this year.
